Local Newsboy Receives Carrier Award

Greg Ferrero, a newspaperboy for the Bonita Publishing Co., publishers of the Upland News, recently received an Outstanding Newspaper Carrier trophy from Lt. Gov. Ed. Reinecke. The trophy was presented to Ferrero at a California Publishers Awards luncheon in San Francisco.

Ferrero was selected by the California Newspaperboy Foundation as one of the top six newspaper carriers out of the 70,000 in California in recognition of an outstanding job in service to subscribers.

Said Ferrero: "The trip to San Francisco was really great. We were there two days and got to see a lot of the city. We went to Fisherman's Wharf, Chinatown and the Portland-Oakland game. I was excited about getting the award and meeting Mr. Reinecke."

The Bonita Publishing Co. salutes Outstanding Newspaper Carrier, Greg Ferrero.

Rapid Transit District Cuts More Services Here

By PATRICIA REID
Of The News Staff

The RTD board has voted to cut out bus service on Rapid Transit District line 60-G between Upland and Yucaipa. The board based its decision on the fact that San Bernardino County and its various municipalities refused to pledge a portion of their sales tax revenues for public transit.

The route will be eliminated on April 8. The communities of Fontana, Rialto, Etiwanda, Cucamonga, Loma Linda, Redlands, San Bernardino and Yucaipa will be affected by the action. Service will be maintained, however, for that portion of the line serving Upland, Claremont and Pomona.

Jack R. Gilstrap, district general manager, said the decision was unavoidable. "It simply isn't fair or equitable for cities of one county to have to pay for services in another county which chooses not to carry its fair share of the cost out of new funds which are available for that specific purpose," Gilstrap said.

The subsidy requested by RTD to maintain bus service in the county would have amounted to seven percent of the transportation money acquired by application of a gasoline sales tax.

Last Dec. 4, the San Bernardino County Board of Supervisors voted not to share new transportation revenues with the Southern California Rapid Transit District and the San Bernardino Municipal Transit System.

RTD officials vowed to appeal to the state's Business and Transportation agency. Yesterday's disclosure of the service cut explained that RTD has decided not to appeal.

"Similar requests have been approved by county and city officials in Riverside County," explained Dr. Norman Topping, RTD president.

College Oks Advisory Committee

Last week the Chaffey Community College Board of Trustees approved a recommendation to establish a 17-member College Policy Advisory Committee to evaluate policies and make recommendations to the college president.

Trustee Georgia W. Mellon made the recommendation, and the board unanimously approved it. The group will convene Tuesday for its first meeting. It is now scheduled to meet regularly on each Tuesday.

The motion further provided that the board will review the committee's first year activities at its March, 1974 meeting.

The committee, being formed to streamline the college's decision-making process, will replace four other committees. These are: the College Advisory Council, the Curriculum Committee, the Student Services Committee and the College Fiscal and Planning Committee.

City Council Oks Upland-Ontario RTD Line

The Upland City Council has approved a plan to start RTD bus service between Upland and Ontario this week.

After some investigation of the proposal, the Council delayed taking action Jan. 2 and instructed the city staff to further study a proposed bus service that would cost less. A comprehensive 23-page report by Jose M. Fuentes, personnel director, was submitted to the Council Tuesday night. The report detailed pros and cons of four main alternatives, and concluded that the alternative originally proposed -- that Upland and Ontario contract with SCRTD initially for a trial period of 6-12 months -- was preferable.

After a unanimous vote by those councilmen present, the city staff was instructed to begin negotiating with RTD and Ontario to get the system going as soon as possible. Ontario is to bear 58 percent of the cost, and Upland 42 percent. The two cities will pay a total of 70 percent and RTD will pay 30 percent. The bus service will be started on a trial basis of six to 12 months and is to be operational in 30-45 days.

There was some discussion among the Council that Upland's cost is too high for the miles of service it gets, and that the proposed route should be altered to include more of the southeast quadrant of the city. Fuentes said RTD would revise route and percentage costs if necessary.

Bill Shourds, of the Fun After Fifty Club, underlined the dire need for a local bus system. He said he'd studied the need and it was very great in the city.

The Council unanimously agreed to spend $2,300 to improve the parking and roadways into San Antonio Park in time for the opening of the Little League Season on April 28. The matter was studied by a committee after a request by William Kaufer, president of the Foothill Little League, at the last meeting.

Questions were raised concerning which city organizations should be required to pay usage fees to use the new Recreation Center located in Magnolia Park. Both Scout groups and Little League requested to be exempt from paying a fee. The matter was referred to Recreation Director Fred Taunton.

Final approval was given to a general plan amendment and zone change to rezone land east of Cable Airport to low density residential. Mayor Abner B. Haldeman was the only "no" vote on the general plan amendment since Councilman Bailin was absent. "I want to go on record as saying Cable Airport should be given as much protection as possible," Haldeman said.

Dewey Cable, of Cable Airport, warned the Council of increasingly stronger Federal Aviation Association requirements to establish larger clear zones around airports for safety reasons.

AT COUNCIL MEETING

'White Awareness Week' Urged

In the middle of Black Awareness week, Jerry Leggit, executive director of the Los Olivos housing project, told the Upland Chamber of Commerce that we ought to be celebrating "White Awareness Week" since "whites are probably the largest culturally disadvantaged group there is.

"Anglo-Americans have lost a sense of where we come from, our past culture and heritage," he said. This is unfortunate, according to Leggit, because "all of us exist in the past, present and future." And by not identifying with the ethnic background of its immigrant ancestors, Anglos have "lost contact with what our culture really is," Leggit said.

Leggit, who's working with Mexican-Americans in Los Olivos, and who is very familiar with Mexican-American culture, addressed the chamber members in a speech entitled: "As American as Lemon Pie and Tacos."

He said there's little room for Mexican-Americans in the great American melting pot and that's the way it should be. Leggit said the Italian, Greek, Polish, Irish and other immigrants made a mistake when they so willingly jumped into the American melting pot.

Leggit remarked that the Southwest has drawn largely upon Mexican culture and assimilated the cultural traits of Mexico into their own heritage -- in street names, town names, legal systems, etc. Rather than saying to Mexican-Americans, "You have to participate in the system according to our values," it would be better for anglos to say "Let's participate in the system togehter," Leggit said.

"It's not a matter of cultural tolerance where we feel we have to draw lines around people's cultures . . . but rather we need a cultural flow whereby we can draw from each others' cultures in living our lives," he said.

He continued to point out that there are two reasons why Mexican Americans won't assimilate with what we consider the American Culture -- When European immigrants decided to come to this country, "They knew that wrapped up in that decision would be a change in their way of life," he said.

But, unlike the European immigrants, people of Mexican heritage "were already in this country and this precludes assimilation," he said.

The second reason for non-assimilation is the close proximity of Mexico to the U.S. and the constant traffic across the border.

By being in frequent contact with residents of Mexico and, thus, the homeland culture, Mexican-Americans are constantly reminded of their ethnic background.

Councilman Harold Bailin remarked that it's difficult to involve the Mexican-American community in civil life locally. Leggit answered by saying, "The prevailing attitude among the citizens of Upland is that this is basically a white middle-class community.

"But this is not true. An estimated 10 percent of the citizens of Upland are Mexican-Americans and most of them own their own homes," Leggit remarked.

He continued to point out that anglos don't recognize the various economic and cultural strains within the community and that Mexican-Americans are not represented in the state legislature either. Leggit said "People in business and schools have a responsibility to open the channels to Mexican-Americans and to allow them to participate."

Housing Authority: Business Is Stifled

The regular monthly meeting of the commissioners of the Housing Authority of Upland was held last week in Los Olivos. Business was stifled because Jerry Leggitt, executive director of the modernization project, was not present for the meeting and commissioner Irene Morrill was also absent.

On Jan. 23 a special meeting was called to pass a resolution to extend the construction company's contract 81 days on the modernization project. Maddox and Stabler Construction Co. of Los Angeles requested that their original contract be renegotiated for 81 days extension, with additional payment of $100 a day or $3,022 a month for delay.

On Jan. 12 Housing and Urban Development officials reported that they absolutely wouldn't allow renegotiation of contract. None of the commissioners present at the meeting knew what details had been worked out with Maddox and Stabler, but that work was proceeding normally except for delays due to excessive rainy weather. City attorney Donald Maroney said another special meeting with HUD officials and Maddox and Stabler would be held in the near future because the construction was still unhappy with the contract.

One report indicated that 63 percent of the modernization work on the houses at Los Olivos was now complete. The commissioners granted an extension of seven days to Ace Pipeline to lay necessary pipelines. Commissioner Ray Rivera indicated the work was proceeding well on the project.

Obedience Dog Puts Some Bit Into It

Some 246 dogs entered the annual MOTOC Dog Obedience Club AKCOB Sanctioned Match Sunday at Upland's Memorial Park. All breeds registered with the American Kennel Club were allowed to enter.

MOTOC Dog Obedience Club has been active in the Upland area for about 20 years and holds novice training classes during the summer months starting in March with Ray Mc Ginnis--the head trainer. The club has 86 members and does many programs for local schools. On Saturday, March 10, Betty Regan, of Upland the only licensed obedience judge in the area, is presenting a dog show for Mission School, 5555 Howard in Ontario, The purpose of the shows is to present to the children an idea of how dogs can work and how to properly care for them.

High of the Day winner at Sunday's dog obedience match was Rob Brooks of Tujunga with a score of 199 points out of a possible 200 points.

On Aug. 4, 1973 the first licensed AKC Obedience Trial will be held in the Upland area. This will be for pure bred dogs only trained in obedience through novice, open, utility. The MOTOC Dog Obedience Club meets at the First National Bank in Upland the fourth Thursday monthly. For further information call 982-7677 or 982-1238. The mailing address is the MOTOC Dog Obedience Club, P. O. Box 4, Upland 91786.

American Service Week Here, March 5-10

The week of Monday, March 5 - 10 has been proclaimed American Field Service Week for the City of Upland by Mayor Abner Haldeman.

His proclamation points out that the nonprofit organization was begun during World War I to encourage international understanding and respect. The program sponsors the inter-change of foreign and American students for a summer or year's program to study and experience the cultures of other nations.

White Tag Days are not new as the merchants and shoppers in Upland have been supporting the discount days for 10 years except when it was not held last year. The $1 White Tag entitles the consumer to a general 10 percent discount on all but fair trade items and a few other exceptions at at least 30 merchants.

The White Tag bearer benefits amazingly as the $1 tag may be used in any participating store over and over during all 3 sale days. In other words, a $10 purchase pays back the initial $1 investment but a $400 purchase will save the buyer $40.

Merchants participating are: Allied Motorcycle, Betty's Beauty Shop, Bob Bauman Photography, Christian Light Bookstore, Davis Jewelers, Diers Shoes, Grove Theatre, Hottel's Furniture, House of Accents, House of 1001 Wigs, Import Auto Supply, J. J. Atwood Department Store, McFadden Arts & Crafts, Mirchell & son, Mona's Dress Shop, Mr. Steak, Mt. Fuji Garden Center, Rosedale's Flowers, Rugg Lumber Co., Strings & Things, Tami-Jo's Draperies & Carpets, Tom-Son Cleaners, Upland Bakery, Upland Fabrics, Upland Feed & Fuel, Upland Lumber, Uplander Motor Hotel, Upland Pharmacy, Upland Sewing Center, Uppity Attic and Vagabond Store.

The adult A.F.S. Club White Tag committee serving under Mr. Grossman and Mr. Hutton are: Mr. Phil Weil-prizes, Ms. David Hopley - Distribution Chairman, Mr. Maury Lowe - Upland High School Coordinator, Ms. Ray Rietkerk - Publicity, Ms. Vickie Marburger, L.C.C. President, student and club sales. Mr. Weil announced that there will be a first prize of $25 cash to the student selling the most White Tags, second prize $15, third prize $10.

The club selling the most tags at Upland High per member will receive a cash prize. The second period class prize to individuals selling five or more tags will be dance tickets and hamburger and french fries at McDonalds of Upland. In addition, several prizes donated by merchants will await students at "mystery homes" throughout Upland including dinners for two at local restaurants, pizzas and merchandise gift certificates.

With the entire community's cooperation, the Upland Chapter of American Field Service hopes to attain their fund raising goal of $2,500 to finance the student exchange program at Upland High School. Tags are now on sale from students canvassing Upland and will be on sale in the downtown area on the sale days of March 8, 9 and 10.

LAFC Says No To City Of Fontana

On Wednesday Feb. 7, the Local Agency Formation Commission (LAFC) tabled a request by the City of Fontana for an increased sphere of influence. They also tabled until March 14, a proposal to form an industrial preserve. This is the second tabling of the hearing for further study. (The first hearing was scheduled for Jan. 24.)

What's really at stake in this controversial issue is whether any city should ever benefit from the enormous property tax base of the west Fontana industrial complex, which is dominated by Kaiser Steel Corp.

Fontana's sphere application includes territory all the way to the Devore Cutoff freeway. The "industrial preserve" application, to which Kaiser Steel, Edison and 12 other corporations have affixed their signatures, covers a 10-square-mile area that has an assessed valuation roughly estimated at $175 million -- nearly a tenth of San Bernardino County's total property tax base. The area, described sometimes as California's third largest industrial nucleus, lies generally between Cherry Ave. from Foothill Blvd., south to Jurupa Ave. The area doesn't include less developed industrial land now in the City of Ontario's zone of influence south of San Bernardino Ave. and west of Etiwanda Ave.

If the Fontana sphere of influence application fails, city officials plan to advance an alternative influence zone west of Cherry to Etiwanda Ave. between Foothill and Jurupa Ave., which would include the proposed industrial preserve.

Some 200 homes are represented by a West Arrow Citizens Group. The group formed to resist the proposed formation of an "industrial preserve" in their area. The group's representatives have appeared before LAFC indicating that if they are to be united with anything, they prefer becoming part of Fontana.

Bill Williams, chairman of the Alta Loma, Cucamonga, Etiwanda Municipal advisory Council (MAC), said the council objects to the preserve plan. He cites that any municipal-type agency or city eventually established for the tri-community area would need and be entitled to some of the industrial tax base -- most particularly the Edison plant which is assessed at about $23 million.

Last week the board of the Cucamonga District Chamber of Commerce voted to send a letter to LAFC "strongly protesting" the "industrial preserve" proposal. Chamber president Clarke Boesen indicated "in this day of social responsibility I feel it's wrong for industries not to have social responsibilities." He said if industries are in the community they ought to support the community and not be exempt from taxation.

Local Students Picked To Play In State Band

Several students from Alta Loma High School's band were chosen to play in the State Honor Band, sponsored by the California Band Directors' Association, which performed Sunday at Anaheim High.

Students selected include: Corie Anderson, alto clarinet; Pam Clayton, french horn; Donna Clayton, flute; Glenn Corner, trumpet and Ron Whisenand, trumpet. These students were chosen along with 120 others from over 700 entries from all over the state.

This is the sixteenth annual California Band Directors' Association and all State Band Convention. Students from all over the state were on hand to participate last weekend. Dr. Francis Mc Beth directed the All State Symphonic Band and Marvin Nelson directed the All State Concert Band.

LOCAL AUTHOR -- Carnelian Elementary School Teacher Don Clucas is shown demonstrating some Indian artifacts he and his class unearthed recently in the area. He's writing a history book about the Alta Loma - Cucamonga area which will come out in the Fall.

WRITING A BOOK

Everybody Says It, Nobody Does It

"Everybody says they're going to write a history book of the area, and no one ever follows through and does it," said Helen Kilmurray, branch librarian of the Alta Loma - Cucamonga branch County Library located at 9161 Base Line Rd., Cucamonga.

When school teacher Don Clucas started hunting in the library for any information available on the local history in July 1971, he quickly discovered there just wasn't much -- and that what did exist was in the form of newspaper clippings stashed in file cabinets or bits and pieces of history found in books. It only took him a month to make up his mind to do something about this problem.

Clucas, who teaches sixth grade at Carnelian Elementary School in Alta Loma, began gathering information for a local history book. At present he has 100 typewritten pages and the finished product is well on its way -- at last Ms. Kilmurray and other local history buffs can have a source to go to!

Clucas got Gerald A. Smith, executive director of the San Bernardino County Museum Association, to approve the book and to publish it under the auspices of the museum. He hopes to have it published in time for his next class in the Fall. He hasn't decided yet how the book will be financed, whether the museum will pay for it completely, or whether he will share in the publication costs.

Clucas came to Cucamonga from La Habra where he also was a teacher. "I'm a real history nut and have always wanted to write a history book and knew I would some day," he said. While his ideas for a history book on La Habra were brewing, some other ambitious writer "scooped" him and came out first with a book, so he didn't waste any time with the Alta Loma - Cucamonga book.

Clucas attended Biola College in La Mirada and majored in social sciences and physical education. He said Civil War history and Indian history have always been his first loves, although he finds local history fascinating also.

Clucas may title his book "In the Shadow of Cucamonga Peak." It is divided into chapters beginning with early man in the Cucamonga area and covers all the significant local events up until the 1920s and 1930s. He's used books such as A. L. Krober's "Indians of California" and E. G. Gudde's book on place names as references. A lot of information has come from old issues of the Cucamonga Times as well as other newspaper clippings. Some colorful and flavorful parts of the book have come from personal interviews with old timers in the area such as Ruth Milliken.

Clucas said he really likes the relative ruralness that's still left in the area and that it reminds him of how Santa Ana looked when he was born there and the population was a mere 1,700. He fully realizes and appreciates the value in capturing local history while early settlers are still around and getting it recorded before the area becomes totally metropolitan and it's lost forever.

Since his interviewing Clucas has gotten inspired to write other books such as "Twenty Different Versions of the Tapia Treasure" and also a modern history of 1930 to the present and the changes that have taken place. He's in the process of writing a history of his church and would like to write a local history account of Temecula someday also.

'Passports To Parks' Available At Local P.O.

"Passports" to outdoor recreation are now available at all first-and second-class post offices, it was announced today by Upland Postmaster Charles L. Welch.

The Golden Eagle and Golden Age Passports are wallet-size, calendar-year permits which entitle the bearer to general admission to national parks and recreation areas having entrance fees.

The Golden Eagle costs $10.00 The Golden Age is issued without charge to anyone 62 years of age or older.

Issued by the U.S. Department of the Interior, the cards are particularly useful to families touring the National Park System, Mr. Welch said, because they trim entry costs.

The Golden Eagle allows the bearer and those with him in a private, noncommercial vehicle to general admission to parks and recreation areas.

Heart Fund Leaders Named Here

Ms. Rosemary McIntosh has been named to direct volunteer efforts in Cucamonga during Heart Month through February.

During the drive, local heart volunteers will join an army of more than two million Americans, led by First Lady Pat Nixon, honorary Heart Fund Chairman, to visit friends and neighbors to distribute a special life-saving brochure and emergency telephone tag; and pick up contributions to help reduce death and disability from heart and blood vessel diseases. The county goal is $140,000. Goal for Cucamonga is $450.00.

Theme for this year's drive is, "Beat the big one" --Heart Attack. Heart and blood diseases kill more than one million Americans every year, more than all other causes combined, including cancer. Fifty-two percent of all deaths in San Bernardino County, last year, were the result of some form of heart disease. Aside from the suffering and loss of life, the dollar cost of the epidemic this year will total $19.5 billion in lost wages and medical expenses. This is ten times the cost of last summer's nearly two billion dollar hurricane floods, the greatest natural disaster in the nation's history.

The San Bernardino County Heart Association's year round program of research support, public and professional education and community services includes, public forums, presented in laymen's language; a speakers' bureau of 70 physicians and laymen; a new school heart health education program for grades kindergarten through two years of college; continuing education courses for nurses; specialized training for firemen; policemen, highway patrolmen, state park and beaches life guards, other rescue squad personnel, and ambulance attendants in the life-saving Cardio-Pulmonary Resusciation methods; cooking schools, diet counselling; health fairs; screening programs for children; referral services; the film, mankind and book lending library; support of the Inland Heart Center and the Pacemaker Clinic; support of a heart researcher; and more.

The Association purchased special film and equipment for the County Library for use by organizations for their training. Since November, the Association has participated in three community health fairs and conducted five programs in the Mexican-American communities and with Senior Citizen groups. A large supply of Christmas cards was given to Senior Citizens in December.

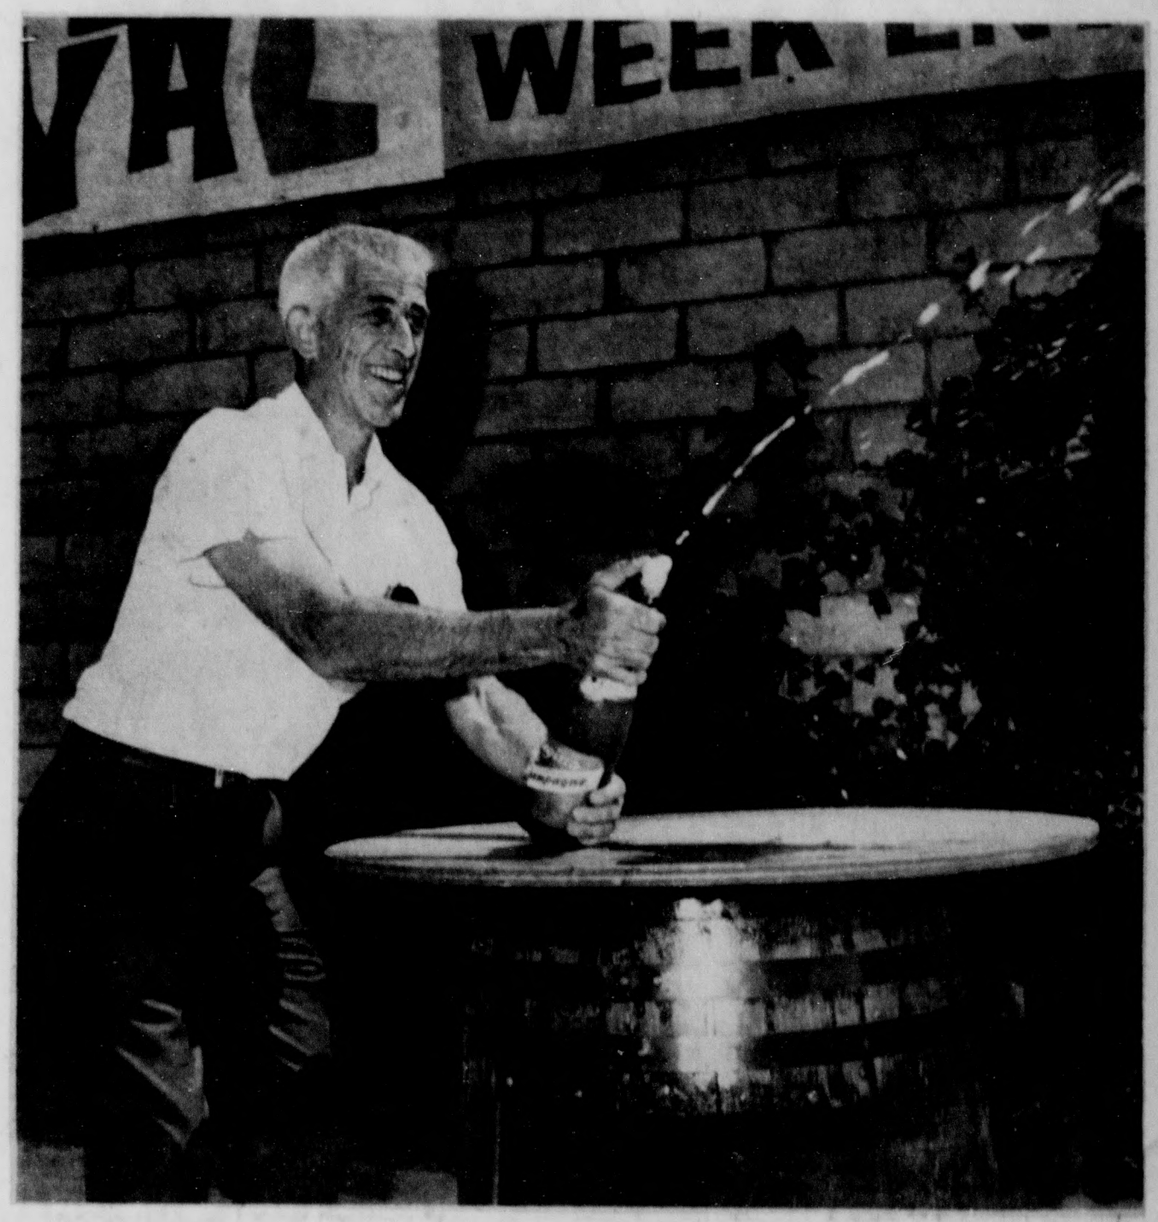

The County Heart Association is not a member of any community United Crusade. All funds come from the Heart Fund Campaign, each February, from Memorial gifts and bequests, from the Combined Federal campaign held in government agencies and from AID, an industrial fund raising group. Last year, the volunteers collected $136,000 for the fight to reduce heart deaths and suffering.

Persons interested in participating as volunteers may contact the local Heart Fund Chairman or the Heart Association office in San Bernardino.

The major high point of the campaign will be "Operation Heart Alert," a three-day period for heart, Feb. 23, 24 and 25.

Booster Club To Sponsor Movie Here

The Highlanders Band Booster Club and Highlanders Band is sponsoring a midnight show tomorrow night at the Grove Theater in Upland at 11:30 p.m. The movie is "Asylum" -- which is approved by the Parental guidance committee.

"Asylum" is produced by the company that produced such hair-raising tales as "Tales From the Crypt." It stars Barbara Parkins, Richard Todd and Peter Cushings. Admission charge at the door is $1.00 per person. This show is to raise funds for the band's upcoming trip to participate in the Hawaiian Festival of Music, Symphonic and Marching Bands on April 23-30 in Hawaii.

Next Tuesday from 11:00 a.m. until closing the band will also sponsor a Pizza Party Day at the Upland Pizza Palace. All proceeds from the day's business will be donated to the band.

A spaghetti dinner will also be held at 7 p.m. on March 4 at Upland High School Cafeteria to raise funds.

What makes Mayfair's discount prices "more fair"?

Quality meat & produce at discount prices!

Mayfair is now discount. We've drastically cut prices on 7,542 items. In fact, comparisons show food costs less at Mayfair than at markets which have been telling you that they have the lowest prices in town!

The best part, though, is you don't have to compromise on quality to get these low prices. Not at Mayfair.

Our meat and produce are still excellent. When we cut our prices to discount level and below, we did not cut down the quality of our meat and produce.

That's one important reason why, at Mayfair, our discount prices really are more fair.

"The God who gave us life, gave us Liberty at the same time"

Thomas Jefferson

This Series is Made Possible by These Business Firms and Individuals Who Believe Our Country is Worth Preserving

Lion-hearted President

"It is not the critic who counts, not the man who points out how the strong man stumbled, or where the doer of deeds could have done them better. The credit belongs to the man who is actually in the arena; whose fate is marred by dust and sweat and blood; who errs and comes short again and again; who knows the great enthusiasms, the great devotions, and spends himself in a worthy cause; who at the best knows in the end the triumph of high achievement; and who at the worst, if he fails, at least fails while daring greatly; so that his place shall never be with those cold and timid souls who know neither victory nor defeat."...

RIB STEAK

Fazio's rib steaks are trimmed like you have never seen before.
You buy only the tender portion of the rib because the lifter, plus excess bone and fat, is removed before weighing in order to give you more lean tender steak for your money.
You haven't eaten a tender rib steak until you have had one from Fazio's.

PUBLIC NOTICE

NOTICE OF HEARING ON PROPOSED CHANGE OF ZONE FOR UPLAND AREA

NOTICE IS HEREBY GIVEN that the Board of Supervisors of the County of San Bernardino, State of California, will hold a public hearing on the petition of Richard A. & Carolyn M. Mc Ginnis requesting that a portion of the unincorporated area of said County, hereinafter described, be rezoned from C-1 (neighborhood business) & R-3 (multiple family residence) to C-2-T (general business transitional), as said zones are described in Title 6, Division 1, Chapter 2, of the San Bernardino County Zoning Code, and/or such other zone classifications as the Board of Supervisors deems appropriate after public hearing. Said proposed rezoning has been recommended to said Board of Supervisors by the Planning Commission of said County.

SAID HEARING will be held on MONDAY, MARCH 5, 1973 at 3:00 p.m., by said Board of Supervisors at its regular meeting place in the County Civic Bldg. (second floor), 175 West Fifth Street, San Bernardino, California, when and where all interested persons may appear and be heard. Said proceedings are being conducted in accordance with Title 6, Division 1, Chapter 2, of San Bernardino County Zoning Code, as amended.

The unincorporated area hereinabove referred to and affected by said proceedings is located in the UPLAND area and is described as

Ptn of Lots 5 & 12, Cucamonga Fruit Lands, Sec 9, T1S R7W, SBB&M, GENERALLY LOCATED ON THE SOUTH SIDE OF SAN BERNARDINO RD APPROX 150' EAST OF TAPIA VIA.

Detailed maps showing the proposed zoning are on file in the offices of the Clerk of the Board of Supervisors (175 W. Fifth St.) and the County Planning Commission (316 Mt. View Ave.), San Bernardino, California.

NOTICE IS HEREBY GIVEN that the Board of Supervisors of the County of San Bernardino, State of California, will hold a public hearing on the proposal of the Planning Commission requesting that a portion of the unincorporated area of said County, hereinafter described, be rezoned from C-2 (general business) to 4,000-R-3 (4,000 sq. ft. per unit multiple family residence), as said zones are described in Title 6, Division 1, Chapter 2, of the San Bernardino County Zoning Code, and/or such other zone classifications as the Board of Supervisors deems appropriate after public hearing. Said proposed rezoning has been recommended to said Board of Supervisors by the Planning Commission of said County.

SAID HEARING will be held on MONDAY, MARCH 5, 1973 at 3:00 p.m., by said Board of Supervisors at its regular meeting place in the County Civic Bldg. (second floor), 175 West Fifth Street, San Bernardino, California, when and where all interested persons may appear and be heard. Said proceedings are being conducted in accordance with Title 6, Division 1, Chapter 2, of San Bernardino County Zoning Code, as amended.

The unincorporated area hereinabove referred to and affected by said proceedings is located in the CUCAMONGA area and is described as

Tract 8467, Being a ptn of Lots 11 Sub B, Cucamonga Vineyard Tract. GENERALLY LOCATED ON THE SOUTHWEST COR OF SAN BERNARDINO RD & HELLMAN AVE.

Detailed maps showing the proposed zoning are on file in the offices of the Clerk of the Board of Supervisors (175 W. Fifth St.) and the County Planning Commission (316 Mt. View Ave.), San Bernardino, California.

Down Along The Avocado Pit Stop

Martinis and caviar in a Manhattan penthouse; lobster and beer on a cool, summer beach night in Maine; beef stew over an open campfire in Colorado -- food and lifestyles blend together and evoke interesting imagery in the mind's eye. Just as much fun is imagining how eating habits and food fit into the lives of special people. Here'e one to try. Imagine a British race driver travelling through the U.S., picking up prize money and championship status, living "on the road" an exciting and fast-moving life.

David Hobbs is a native of Upper Boddington, England, a small agricultural stretch in the heart of the Midlands. During the last three years, he raced extensively in the U. S. and won the Continental Road Racing Championship in 1971.

Since his racing career brings David to California often and to the Monterey peninsula half of that time, David is treated there to his first choice among the produce he finds superior in the U.S. -- the avocado. He relates that avocados are fairly scarce in England and when he and Margaret, his wife, enjoy them, it is something special -- a "treat."

The Shutters in Monterey is the restaurant that caters special event days at Laguna Seca racetrack and is a local hangout for drivers, other race participants and spectators. There, Chef Leo creates many special dishes for avocado lovers like David and Margaret Hobbs. Filet Mignon Farce De'Avocado is an incredibly luscious pyramid beginning with a bed of long grain white rice. Then, Leo starts building his masterpiece with a special blend of flavors and textures that will receive the checkered flag on any dining room table. This winning combination of filets of beef, mushrooms, onions, Hollandaise sauce and buttery-good avocados virtually sings of victory.

And for the British salad lover like David who wishes to be served more than some 'shrivelly lettuce," Leo offers this Smashing Avocado Salad. It, like Filet Mignon Farce D'Avocado, is guaranteed to please the most jaded traveller -- whether he is a master of top speed or a leisurely Sunday afternoon visitor to Monterey.

In fact, the combination of a regional delight like the California avocado and the expertise of Chef Leo makes The Shutters one pit stop any driver -- even David Hobbs -- would love to make.

SMASHING AVOCADO SALAD

1 small head iceberg lettuce
1 small head romaine lettuce
1 large carrot
2 medium size tomatoes
2 ripe California avocados peeled and cut into lengthwise slices
4 strips lean bacon
1/2 cup lemon juice
1 dash Worcestershire sauce
1 dash Louisiana hot sauce
1 dash monosodium glutamate
fresh chives

Wash and drain lettuce. Chop iceberg lettuce into bite size pieces and toss in large salad bowl with leaves of romaine. Grate carrot into greens and toss lightly. Slice tomatoes and place on top of lettuce in bowl. Saute bacon while avocado slices are standing for 15 to 20 minutes in the marinade of lemon juice, Worcestershire sauce, hot sauce and MSG. Chop bacon and place on top of tomato slices. Alternate marinated avocado slices with tomato slices and sprinkle fresh chives over the avocado. If desired, garnish with speared ripe olives in center. Serve with vinaigrette dressing. Serves 6.

VINAIGRETTE DRESSING

2/3 cup salad oil
1 teaspoon salt
1/3 cup tarragon vinegar
1/4 teaspoon pepper
1/4 teaspoon sugar
1 hardboiled egg, chopped
1 tablespoon pimiento, chopped
1 tablespoon minced onion
1 tablespoon minced parsley

Blend oil, vinegar, salt, pepper and sugar in blender. Pour into screwtop jar. Just before serving, add remaining ingredients and shake well.

Makes about 1-1/2 cups.

The How To Of Cheese Making

Kits for cheese making at home are available for adventurous make-your-own cheese lovers. Natural cheeses are classified by the method of producing the curd, the animal source of the milk and its fat content, and the mold or bacteria used in the ripening process.

Cheeses are classified as hard, semi-hard and soft, depending on their moisture content.

It is possible to make a soft cheese, such as Monterey Jack, with the home cheese making kit. Making this cheese is quite simple and aging time is minimal.

"One difficulty I am sure many people will encounter in making cheese is the attainment of the proper moisture level. The cheese press supplied in kits does extract moisture, but most consumers would not know how much moisture to express from the curd. Therefore, the cheeses would be different each time the moisture content varied significantly," said Dr. John Bruhn, food technologist, UCR.

The knowledge, skills, equipment and conditions required for making these hard cheeses is generally beyong those available in the home environment, adds Dr. Burhn.

Magic, Crash Diets: What Went Wrong?

Watch out! Many nutrients are missing in crash diets. University of California Home Advisor Sharon Higgins warns of the hazards of following a quick weight loss or crash diet.

The story of Ms. "C", as told by Ms. Higgins, begins like this. Ms. "C" wants to lose 15 pounds. She orders a "magic" diet with a money back guarantee that she will lose weight.

The diet costs $5 and on this diet she eats only grapefruit and eggs. Two weeks later, Ms. "C" has lost 10 pounds, has a bad cold and feels jumpy.

Now, Ms. "C" goes off her diet and the following week she regains 15 pounds! What went wrong?

Ms. Higgins states that the strict egg and grapefruit diet results in rapid weight loss because it is a low calorie and carbohydrate-free diet.

Because she ate no carbohydrates (starches and sugars) her body lost some water, and very little fat. Neigher did Ms. "C" eat enough protein (meat, eggs, fish, poultry, beans, nuts, dairy foods).

The body needs protein to maintain structure so it used lean protein tissues from the muscles and organs to supply protein needs, "leaving the fat behind."

A return to old eating habits results in the body replacing the lost water and protein.

Dieters Often Fooled By Gimmicks

Many gimmicks or crutches are available to dieters such as fancy exercise equipment and reducing aids. Home Advisor Susan Smith reports that most are a waste of money and some are even dangerous.

To begin, prescription reducing pills and capsules contain drugs such as amphetamines, barbituates, and diuretics. These drugs should not be used for weight reducing, said Ms. Smith. they can be habit forming and cause dangerous side effects.

Many non-prescription reducing aids like candies, wafers, cookies, capsules, vitamins, and pills are advertised as reducing aids. One type of reducing aid is the "bulk producer." This product supposedly swells in the stomach so a person should not feel hungry. Another is candy-like and claims to reduce hunger by raising the blood sugar. However, there is no proof that these aids are effective in reducing food intake.

Some reducing aids are high protein - vitamin preparations. These products cannot cause weight loss and may be extra calories. Over-eaters usually eat whether or not they are hungry.

Then there are padded suits and belts that a wearer inflates with air or water. These devices squeeze so hard that fluids in body cells are forced out. Take off the outfit, the fluids return.

Active exercise is important in weight reduction to tone up muscles and help burn up stored fats. Special equipment is expensive and requires regular usage to get results. Free exercises such as walking, jogging, jumping rope and exercising at home are just as good, adds Ms. Smith.

"Let's face it, there is no magic, no easy way, no fast way to lose weight. The safe way to lose weight takes determination.

Cut out sweets, fats and reduce food portions, thus reducing caloric intake permanently. Try to lose one or two pounds a week, but never more.

ORCHARD LANE

Individuality Emphasized

Special consideration was given to individuality and privacy in designing the condominium homes at Fredricks Development Corp.'s Orchard Lane residential community in Upland, according to Hank Fredricks, president of the company.

The 134 single-story homes currently under construction in the development's second phase feature a selection of eight exterior elevations, three more than in phase one.

"We've created a variety of exterior styles at Orchard Lane in an effort to give buyers the home most nearly suited to their individual preference in architecture," said Fredricks. "While it's impossible to cater to everyone's likes and dislikes, we've tried to provide a good selection of today's most popular designs."

Heavy wood beams and wood shake roofs as well as earth tones are featured in the Orchard Lane homes with contemporary, rustic and ranch designs. The Spanish-styled homes have textured stucco exterior walls and wood shake roofs. Masonry is also included in some of the home exteriors.

Privacy was a prime consideration in the design and location of each home's large patio area.

Price from $19,900, Orchard Lane homes fedature central air conditioning, forced air heating, dishwashers and cable television. Many of the homes have a fireplace.

Magazine To Hold Fashion Show At Montclair Plaza

Spring and summer fashions to sew come alive from the pages of Glamour magazine's March issue in a super "Sew Great" fashion show at the Singer Sewing Center at the Montclair Plaza Saturday, Feb. at 2:00.

Ms. Joan Alforno, merchandising editor of Glamour, will show and tell how to put-together the season's newest McCall's pattern designs in a colorful, up-to-the-minute wardrobe for career, travel and leisure.

Investments For Women Examined

Women interested in ways to build a future estate or to minimize their tax burden will be offered a UCLA Extension course in "Real Estate Investments for Women," Saturday, March 3, from 9:30 a.m. to 3:30 p.m. in Room 1200 Rolfe Hall on the UCLA campus.

Instructing will be George S. Poppers, attorney, and Susan McHale, senior accountant.

Enrollment fee is $20.

Further information is available by writing to P.O. Box 24902, Daytime Programs, University Extension, UCLA, Los Angeles, 90024 or by telephoning (213) 825-2301.

ALTA LOMA LOSS -- A Walnut player tosses in two more against the Braves. The Mustangs won 73-55 to record Alta Loma's 19th loss. The Braves did manage to place above cellar companion Bonita in Hacienda League finals.

GARY NO. 1

Cav's Take Third Place

Montclair secured third place in the San Antonio League and a playoff battle against Katella by defeating Claremont (57-54) and Upland (69-59) last week.

The Cavaliers finished far behind league-leading Gary (27-1) and second place Ganesha (21-5) in the standings with an 8-6 SAL record and 15-11 over all.

The Cavs made a comeback in the second half against Claremont last week, after trailing by 11. They outscored the Wolfpack 32-18 in the second half, hitting 52 percent from the field. During the same period, Claremont hit for only 33 percent from the floor.

The Cavs took a 53-52 lead, 2:10 left in the contest, with a shot by Jim Brown. Claremont failed to convert, Montclair gained possession and called time out.

The Cavs then went into a delayed offense and pulled the Wolfpack out of their zone. A turnover gave Montclair the opportunity for a three point lead with a quick two points under the basket by Terry Baird.

Montclair held on desperately to their third place position Friday night against Upland. The Highlanders, at the bottom of the league charts with one win, came close to an upset during the course of the game.

The opening of the second half saw Upland's Curtis Olderkamp get hot and score 10 of his 19 points. He was matched overall by Montclair's high scorer Terry Huggans.

Upland League Play Reaches Mid-Point

The Upland Elementary School Basketball League, featuring A and B teams from each elementary school, has now reached its midway point. Teams include boys from grades four, five and six. Team lineups are determined according to a player's height.

Present leaders in the A division include Sierra Vista (3-0), Baldy View (3-1) and Upland Elementary (3-1). Citrus leads the B division with a 5-1 record. Magnolia (3-1) and Sycamore (3-2) are in second and third place.

This year's expanded program has received additional participation from several area agencies, including Upland Elementary School District, Kiwanis' Host and Breakfast Clubs and Lion's Host and Breakfast Clubs.

Community attendance at games, held every Tuesday and Wednesday afternoon at 3:30 p.m. is urged and needed to promote the program.

For information concerning game locations, call your elementary school or the Upland Recreation Dept., 982-1352, ext. 55 or 56.

Modern Salesman: Technology Takes Over

Think of the word "salesman" for a moment, and what comes to mind? Slick operator. Psychological arm twister. Honest Earl's Used Buggies. Art Fern's Tea Time Movie. Fuller brushes. Insurance policies. Kids working their way through college.

What about problem solver? Or cost analyst? Or production engineer?

This week is National Salesmen's Week, an event sponsored in Southern California by the Sales & Marketing Executives Assn. of Los Angeles. For obvious reasons, they're concerned with the fact that salesmen have done a great job of selling products, but failed at selling their profession to an American public with consumerism more and more on its collective mind.

A check of the 600-member organization's roster reveals a group of men and women living with problem-solving, cost analysis, and consumerism on a daily basis. A brief interview with several of them turned up a phenomenon that's just everyday business to them, although most of us outside their world never realize it.

It's the day-in-day-out sage of the problem-solving salesman or saleswoman whose expertise in his or her field saves time and money, not only for his customers, but for consumers, as well.

Want examples? Here are some:

"Some time back, when I was with a local instrument manufacturer, my sales staff worked with engineers at U. S. Steel to solve a batch testing problem for them," recalled Lyn Eikrem, SMEALA member now with the Hirt Combustion Engineers of Sunland. "They wanted to know the composition of each batch of steel they made, but they didn't want to slow up their manufacturing process to do that; after all, the cost would have been enormous.

"What we did was produce a spectrographic and analyzer tied to a computer. The equipment told them what they wanted to know in about ten seconds. You can see the value of this: The quality of the steel is guaranteed and the price of it is held down."

Eikrem's salesmen had to be a lot more than mere instrument pushers. They had to be metallurgists, steel production experts, physists and computer experts.

Another example of applied knowledge in the discipline of metallurgy comes from a precision wire maker in Santa Fe Springs.

"We'll make changes in our product when a customer needs these changes, but it's up to our salesmen to ferret out the nature of the customer's problem so we can do this," explained Ken Brown, president of Branford Pacific Wire. "Just a few weeks ago, one of my sales people got together with a man who makes bolts in his own plant for use in the end products he manufactures. He was disappointed with the life of his dies.

"My salesman took several days to examine the problem, calling upon his knowledge of metallurgy. What he came up with was a very slight change in the nickel content of the wire we make for this man's bolts. Now this customer gets approximately twice as much use from his dies. This sort of thing happens constantly because our salesmen understand the technical nature of the businesses they service."

Donald E. Butler, president of Burbank's SSP Industries, and a past president of SMEALA, related a tale about an unusual use for his firm's frost protection wind machines -- the result of a salesman's effort to solve a genuinely "sticky" problem.

"There was an oil refinery in the Wilmington area that was having trouble with its water reservoir," Butler recalled. "A thin scum of oil was forming on the surface of the water constantly. It was quite a source of concern to plant engineers because of the difficulty and long hours of labor required to clean off that scum every so often.

"One of our salesmen in our SSP Agricultural Equipment subsidiary heard about it and his call to the refinery manager led to an experiment involving one of our wind machines."

Butler went on to explain that the experiment resulted in the installation of several wind machines which simply blow the scum back to a skimmer on the edge of the reservoir where the scum is removed. "It appears," noted Butler, "that this salesman's knowledge of this product's capabilities probably has saved that company thousands of dollars in the past three or four years."

The ever-changing economic horizon is a topic of concern for every sophisticated sales "counselor." Not only must he be aware of the latest modifications to his product line and what they mean to his customers, but he must also pay close attention to the major trends that affect them, as well. Few trends have been as far reaching as environmental protection, and few have produced the tumult of day-to-day changes.

"It seems like the government comes up with a new restriction or regulation on the use of some chemical agent just about every day," said A. M. "Skip" McMahon, of McKesson Chemical Co. (McMahon is also president of Sales & Marketing Executives Assn. of L. A. for 1973.) "We keep our sales force busy contacting our customers to tell them about the new rules and how to keep operating with other chemical alternatives. Our salesmen also help set up stringent testing programs with buyers to help develop new chemicals that meet federal anti-pollution rules and do the job just as effectively as the old products did."

In another case involving anti-pollution equipment, salesmen for a San Fernando Valley firm are working on gasoline fume problems at oil refinery truck docks.

"As much as two tenths of one percent of the gasoline being loaded into tank trucks at oil refineries escapes into the atmosphere in the form of vapors," explained Lyn Eikrem of Hirt Combustion Engineers. "These vapors are very hard to control, and that's why the oil companies haven't been able to develop a reasonably inexpensive way of preventing this situation, even though the discharge of this much of their product is very expensive to them. Now, with the added impetus of anti-pollution laws that say, 'cut this stuff out,' the oil people must solve the problem. Our technical salesmen are working with several companies right now not only to stop the discharge, but, if possible, to recover this vapor so it isn't a loss item that ultimately affects the consumer price of gasoline."

Finally, there's the case of the unsold electrostatic precipitator from a downtown area manufacturer.

"All of our salesmen must have graduate engineering backgrounds in order to address the types of situations they face in the field," commented Gil Snyder, general sales manager for Western Precipitation Div. of Joy Manufacturing Co. in Los Angeles. Snyder's men help match air pollution control equipment to industrial production systems.

"One of our customers, the manager of a coal-fired power plant owned by a public utility, wanted to purchase an electrostatic precipitator from us about three years ago that would have removed 97.5 percent of the fly ash from the exhaust of coal burners," Snyder explained.

"We pay very close attention to pending anti-pollution legislation at all government levels; hence, we knew that the Environmental Protection Agency was just weeks away from obtaining legislation that would require fly ash reductions systems of 99 percent efficiency. Our salesman showed his evidence of this situation to the power station manager and convinced him to purchase the higher efficiency equipment. He saved a considerable amount of money by getting the right equipment the first time and not having to scrap a brand new piece of gear in just a few months when the EPA got its new rules passed."

Such examples were easy to come by for this story. Hundreds could have been obtained in time, all of them citing the use of technical expertise to save a dollar for the consumer down the line.

Thus, the 600 members of the Sales & Marketing Executives Assn. of Los Angeles adhere to their Declaration of Principles, which states, in part: "to serve the legitimate interests of their employers while protecting the rights of the consumer public."

Art Treasures On Display At Chaffey

Art treasures from 15 Southland galleries will be displayed here, Feb. 25 to mark the first open house at the Chaffey College Museum-Gallery.

The open house in the new facility is scheduled for 12 noon until 5 p.m.

Visitors that day will be able to view 48 master works, even a Peter Paul Reubens. There will be creations also by Rufino Tamayo, David Alfaro Siqueiros, Winslow Homer, Donald Nicholson, Andy Warhol, William Merritt Chase and other luminaries.

This exhibit, put together by Acting Director Stanley Wynder, will be up through March 25. Wynder, Padua Hills public relations director, is a member of the Museum - Gallery Subcommittee of the Chaffey College Council for Continuing Education and Community Services. He is active in the Fontana Art Association.

The exhibit has been designated as "Galleries' Choice."

The Chaffey gallery has slated another outstanding exhibit for March 9 until the end of the month. It will comprise 40 framed drawings by Italian, French, Dutch, Geman and Danish masters of the Sixteenth through the Nineteenth Centuries.

The drawings, keyed to classical mythology, are from the E.B. Crocker Art Gallery in Sacramento. These creations are described in printed narrative by art students of the University of California (Davis) under Prof. Seymour Howard.

Shown in the opening exhibit here from the 15 Southern California galleries will be these artists and their works:

Jacqueline Anhalt Gallery (Los Angeles)--Morton Dimondstein's "Nude," Keith Crown's "Illinois Landscape," Carson Gladson's "Oregon Cove."

Ankrum Gallery (Los Angeles) -- Ben Shan's "Maximus of Tyre," Shirl Goedike's "Girl and the Rose No. II," Irving Block's "Jill and Lute."

Adele Bednarz Gallery (Los Angeles) -- Jimmy Ernst's "Spacegraph II," Marc Chagall's "La Fenetre Ouverte," Alice Asmar's "Christmas Rose."

Biltmore Galleries (Los Angeles) -- James Fetherolf's "In Monument Valley," Early Carpenter's "Old Wagon," Leon Franks' "Roses."

Clark Polak's Gallery (Los Angeles) -- Gene Davis' "Black Dahlia," Richard Lindner's "Non - Stop," Andy Warhol's "Electric Chair."

Following the open house, hours for the Chaffey College Museum-Gallery will be 1 to 4 p.m. and 6-9 o'clock, Mondays through Fridays, and 1-5 p.m., Saturdays and Sundays.

Group tours for schools and organizations may be arranged for mornings through the community services office at Chaffey College. The telephone numbers are 987-1737 or 822-7456, extension 337 or 338.

THE ARTS

'Throne Of Straw' Debut Slated At UCLA

"Throne of Straw," a new play by Harold and Edith Lieberman, will be premiered by the UCLA Department of Theater Arts with a March 1 opening in the Ralph Freud Playhouse.

The drama of personal integrity and responsibility is based on the events surrounding the Nazi occupation of Poland, and the response of a Jewish leader in a position of authority to the extermination program in Lodz. The play strips away the shield of hypocrisy and reveals the moral fibre of the people caught up in the horrors of Nazism.

The noted professional actor Robert H. Harris heads the cast of "Throne of Straw" now in rehearsal under the direction of Mel Helstien. Harris, appearing as a Guest Artist, brings to the student cast his experiences in performance on Broadway, London, motion pictures and television.

Tickets for the three premieres are currently available at the Theater Arts Box office, telephone 825-2581 for reservations and information.

Marat/Sade Rehearsals Underway

Rehearsals are in high gear this month as the Mt. San Antonio College Players prepare for opening night of Peter Weiss' award winning drama "Marat/Sade." The play will run Fridays and Saturdays, March 2,3, 9 and 10 in the Little Theatre. Curtain goes up at 8:30 p.m.

Weiss' drama is a play within a play. Alive and vibrant, the play's central theme is startlingly original, combining the best theatrical ingredients of Brechtian, didactic, and absurdist theater of cruelty.

In the embers of the French Revolution a fictional meeting takes place between French revolutionary writer Jean-Paul Marat and the Marquis de Sade. Sade, portraying himself, directs the Charenton in this inner play.

Reservations are being accepted in the Little Theater Box Office by phone, Ext. 236, or in person. Tickets are $1.25 per person for all performances.

Annual Clam Festival Slated

The picturesque seaside community of Pismo Beach is humming with activity now as residents prepare to welcome visitors to their 27th Annual Clam Festival, a mini-Mardi Gras event scheduled for March 2-4 with a parade, contests, bands, pretty mermaids and King Neptune and his Court dispensing fun and nonsense.

Pismo Beach is approximately 15 miles North of Santa Maria and 13 miles South of San Luis Obispo. The event, which is open free of charge to the public, is sponsored by the Chamber of Commerce.

On Friday, March 2, it is expected that a proclamation from King Neptune will officially declare the event open on the basis of the best low clamming tides for the day which happens to be at 2:56 p.m.

This signals the search for the largest clam found over the three day event. Food and game booths will begin to open as well as the Good Old Days Museum. Booths are manned and operated by community service clubs who raise money for various charitable projects.

On Saturday, March 3, beginning at 11 a.m., the big parade begins. A popular television celebrity will head the parade as Grand Marshal followed by regional dignitaries, colorful bands, snappy drill units, floats, pretty girls and of course, numerous well groomed equestrian units.

The parade theme this year is "Treasures of King Neptune". All parade units will be judged by professional judges from the American Judging Association, thereby giving more meaning to awarded trophies. The parade will last slightly more than two hours.

Also on Saturday, following the parade, will be a teenage horse race and rider contest on the beach, art and crafts exhibits, an art show, sack races, a Lion's Club barbecue, a teenagers dance, clamming and diving and fishing contest.

Saturday night is the big Shipwreck Ball at Knight's Bounty Restaurant which is open to the public. Dress is "ole salt" style which means come as you are.

At this dinner event, which will have a nominal charge of approximately $6.00 per person, King Neptune, his Court Jester, accompanied by Queen Aphrodite and pretty Mermaids, will hold kangaroo court ceremonies similar to those on board ships about to cross the Equator. They will initiate pollywogs into world traveled shellbacks.

The reason for changing the dates of the clam festival this year to March from February is because the ocean tides are lower during these dates and therefore gives potential clammers a better chance to dig up their clam limit of 10 per person.

Clam forks can be rented at many stores in Pismo Beach for about $.75 a day.

FLYING HIGH -- Airdevil Jim Rusing comes in for a smooth landing at Sea World with his 16-foot Delta kite. He will be featured in special shows at the marine park on weekends through February and March. The show follows the "Shamu Goes Hollywood" show.

LEVI S. OUTY'S REAL GEORGE SALE

Poor Mr. Levi S. Outy, Beloved Founder of The Outpost, is confused. He celebrated George Washington's Birthday holiday yesterday, Feb. 19th, but the 'Real George's' Birthday is Feb. 22nd. To avoid discrimination, Mr. Outy decreed that we celebrate the Real George's Birthday, with a Second Big Week of 'Real George Values'.

HAIR SLAVES, GO FREE!
Rid yourself of the Purgatorial agony of dryers, of the medieval shackles of metallic roller heads and the cotton candy teased tortured look. Let me emancipate you with pure scissor styling, that gives you freedom and freshness. Our lamp cuts, blower cuts, wash and wear, are for this era. Good for any age, any hair.
Also, No-Set Permanent Wave. No rollers and no pins. You may never have to set your hair again. The natural potential that every head of hair has its message to reveal to one who can hear it. I am that stylist. A little bit better than the very best!

PUBLIC NOTICE

NOTICE OF HEARING ON PROPOSED CHANGE OF ZONE FOR CUCAMONGA AREA

NOTICE IS HEREBY GIVEN that the Board of Supervisors of the County of San Bernardino, State of California, will hold a public hearing on the petition of Matteo & Anne Vaccaro requesting that a portion of the unincorporated area of said County, hereinafter described, be rezoned from R-1 (single family residence) to R-3-T (multiple family residence (transitional), as said zones are described in Title 6, Division 1, Chapter 2, of the San Bernardino County Zoning Code, and/or such other zone classifications as the Board of Supervisors deem appropriate after public hearing. Said proposed rezoning has been recommended to said Board of Supervisors by the Planning Commission of said County.

SAID HEARING will be held on MONDAY, MARCH 5, 1973 at 3:00 p.m., by said Board of Supervisors at its regular meeting place in the County Civic Bldg. (second floor), 175 West Fifth Street, San Bernardino, California, when and where all interested persons may appear and be heard. Said proceedings are being conducted in accordance with Title 6, Division 1, Chapter 2, of San Bernardino County Zoning Code, as amended.

The unincorporated area hereinabove referred to and affected by said proceedings is located in the CUCAMONGA area and is described as

NOTICE OF PUBLIC HEARING BEFORE LA VERNE CITY ZONING ADMINISTRATOR

NOTICE IS HEREBY GIVEN of a public hearing to be held before the La Verne City Zoning Administrator on Wednesday, March 7, 1973, at 2:00 P.M. in the City Council Chambers of the La Verne City Hall, 2061 Third Street. The Zoning Administrator will consider the following application:

An application for a Variance, submitted by Gainey Ceramics, Inc., consisting of a proposal to construct a 5,000 square foot industrial building with less off-street parking spaces than is required by Division IX, Title 7, Chapter 6, Section 9762, Sub-section b-12 of the La Verne Ordinance Code. The property in question is described as follows:

In the State of California, County of Los Angeles, City of La Verne described as a 1.96± acre parcel of land generally situated south of the S.P.R.R. adjacent easterly of the Puddingstone Channel.

All maps and information pertinent to the above application are on file in the office of the Planning Director. Any person interested in the above proceedings may appear at the time and place indicated to testify in support of or in opposition to the subject application.

MODELS OPEN

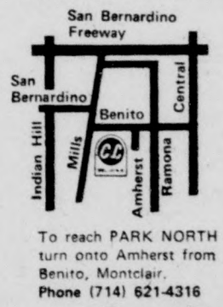

IF OUR DESIGNS WEREN'T SO ELEGANT WE MIGHT CALL THEM HOMEY.

But we'd be taking a chance. True, comfort is built in to a PARK NORTH home. So are many time- and labor-saving features, because we designed them with the active California family in mind. But be advised—at PARK NORTH you will also find the built in graciousness of homes perfectly attuned to outdoor/indoor entertaining or cozy gatherings of friends around the hearth!

What else do we have to offer? Cedar shake roofs, wall-to-wall continuous nylon carpeting in living room, hall and master bedroom, concrete drives and walks and included closing costs. . .and if that isn't enough, we offer front yard landscaping and sprinklers as well. We offer just what it takes to put it all together, but only 7 left!

Why not plant your tree in Montclair.

NOTICE INVITING BIDS

For City of Upland Gas Tax Project No. 3421, the improvement of Salina Street from Grove Avenue to Fourteenth Avenue, and Fourteenth Avenue from Ninth Street to 538 feet north, including: removal of existing pavement, the construction of curb and gutter, drive approaches and sidewalk, asphalt concrete paving, and appurtenant work.

NOTICE IS HEREBY GIVEN that sealed bids will be received in the office of the Purchasing Agent of the City of Upland, California, up to 2:00 PM on March 2, 1973, at which time they will be taken to the Council Chambers and publicly opened by the City Manager, for Gas Tax Project No. 3421, the improvement of Salina Street from Grove Avenue to Fourteenth Avenue, and Fourteenth Avenue from Ninth Street to 538 feet north, in accordance with the Plans, Specifications, and other Contract Documents on file in the office of the City Engineer of said City, to which Plans, Specifications, Standards and Documents bidders are referred to for further information.

The Plans and Contract Documents may be obtained at the office of the Purchasing Agent, at the City Hall, 123 "D" Street, Upland, California, upon payment of Two Dollars ($2.00) for each set, which amount will not be refundable. Standard Specifications for Public Works Improvement Books, 1970 Edition, including the 1971 and 1972 Supplements, may be purchased at the office of the City Engineer at a charge of Six Dollars ($6.00) for each book.

Each proposal must be accompanied by cash, cashier's check or certified check, or surety bid bond in the amount of not less than ten percent (10%) of the estimated aggregate amount of the bid as a guarantee that the bidder, if successful, will promptly execute a contract in the required form and furnish a satisfactory faithful performance bond and material and labor bond. Each of said bonds shall be in the amount of one hundred percent (100%) of the contract price.

Pursuant to the provisions of the Labor Code of the State of California, not less than the general prevailing rate of per diem wages and not less than the general prevailing rate of per diem wages for legal holidays and overtime work, for each craft or type of workman needed to execute the work contemplated under the agreement, as ascertained by and set forth in Resolution No. 2405 adopted by the Upland City Council, shall be paid to all workmen employed on said work by the Contractor or by the subcontractors doing, or contracting to do, any part of said work.

Bids must be returned to the office of the Purchasing Agent enclosed within a sealed envelope with the words - "Bid - Gas Tax Project No. 3421" plainly marked on the outside of the envelope. The right is reserved to reject any and all bids which the City Council may deem not to be to the best interest of the City and also the right to waive any informalities in a bid, and the right to award the contract for the above described work within 30 days thereafter. Work of construction shall begin within 10 days after the signing of the contract and shall be completed within 45 calendar days after the date of the contract. Further information will be furnished and detailed plans and specifications of the proposed work may be inspected at the office of the City Engineer of the City of Upland. Proposal blanks and copies of the Plans and Specifications may also be obtained from the Purchasing Agent.
